## WEATHER FOR ELECTION DAY

New York, Nov. 3.—Much to the disappointment of all interested in the parade held under the auspices of the Business Men's Sound Money association, this morning opened with a cold rain falling. The streets were in bad condition. Governor Roosevelt reviewed the parade. Along the line of march were wooden poles erected by democrats on which there were such sentences as "Trusts can make you march, but cannot make you vote against Bryan." The honor of having the largest number of men in line was claimed by the wholesale dry goods trade, their marshals estimating they numbered 35,000.

The procession started at 9:35 with the candidate for vice-president in an open barouche. The governor declined to shield himself from the rain, saying he could stand it better than thousands who were to march. The immense crowds which were expected to gather around the reviewing stand at Madison Square early in the morning had not appeared at 10:30 o'clock. The drizzling rain which had fallen for hours had soaked the seats and gave the decorations in consequence a drabbed appearance. The committee in charge of arrangements were hopeful of fine weather and had made no preparations for adverse conditions.

At 10:45 the big stand, designed to hold 5,000 persons, contained less than one-third that number. Col. Roosevelt reached the stand exactly at 11 o'clock. He stood in his carriage and waved his hat to the shouting throngs. The men who filed past the stand bared their heads despite the rain, and the governor did the same. "Hello, Teddy," "Three cheers for our next vice-president," "You're all right," were shouts that greeted Roosevelt. Continuous cheering, mingled with music of bands, drowned all other sounds.

**Illegal Registration.**  
St. Louis, Mo., Nov. 3.—Warrants have been issued for the arrest of 350 men charged with having registered fraudulently in the different precincts of the down town wards of the twelfth congressional district. This action was taken on information filed by Chairman John B. Owen, of the Twelfth congressional district republican committee.

**"Hill City" Sunk.**  
Memphis, Tenn., Nov. 3.—Steamer "Hill City," bound to New Orleans, struck a hidden obstruction in the Tennessee chute this morning and sank. The boat can easily be raised. Passengers and crew got safely ashore.

**ELECTION WEATHER.**  
The Weather Clerk Has Let Foul Weather For Either Ohio Valley Or New York.

Washington, Nov. 3.—Willis L. Moore, chief of the weather bureau, makes the following statement to the associated press regarding the weather on election day: "Fall rains have set in, therefore it is reasonable to expect that a considerable area on election day will have foul weather. Exactly which states will be affected, however, we will not be able to determine before Sunday night. But we do not expect both New York and Ohio valley will get fair weather at the same time."

## ROBERTS AGAINST DRUNKS.

He Begs Not to Turn Welcome to Soldiers Into Such.

London, Nov. 3.—Lord Roberts sends from Pretoria a striking appeal to his countrymen to refrain from turning the welcome of the home-coming troops into a drunken orgy. He explains that he thus appeals, because of the distressing, if creditable to men resulting from the injudicious friends speeding the parting soldiers by showing bottles of spirits into their hands and pockets.

## DISCLAIMS THE UPRISING.

The Spanish Pretender Claims It Would Hinder His Plans.

Valencia, Nov. 3.—Don Carlos, the Spanish pretender, in an interview, declared the present uprising in Spain secondary to his orders, and will regard instead of promoting his efforts to secure the throne.

## To Remove Hats in Texas.

Fort Worth, Texas, Nov. 3.—The city council passed an ordinance compelling women to remove their hats at all public entertainments where a fee is charged. The ordinance provides a fine of \$5 or expulsion from the entertainment for violation.

The Optic's Prediction.  
The Optic makes the following prediction as to the majorities that will be given the nominee for congress in the various counties of the Territory. ## NORMAL UNIVERSITY NOTES.

Rare Birds for The Museum—A Night School To Begin.

Nature study bulletins Nos. 1 and 2 have just been issued and will be distributed to the public schools of New Mexico, Arizona, Colorado and Texas. These bulletins were prepared by Mr. and Mrs. T. D. A. Cockerell and will prove of great value for grammar schools.

Important additions have been made to the museum collections during the past week. Mr. Atkins has prepared nineteen specimens of the Evening Grosbeak, which is a rare visitant to this locality. It is not on record that this bird has been found heretofore in the vicinity of Las Vegas. Some of the specimens will be used for exchanges with other institutions. He has also received from Mr. Green a fine specimen of the American Osprey, another bird which is rare in this vicinity.

A night school is being organized to open the first Monday night in November. The common branches will be conducted by Mr. Arnold and the shorthand and typewriting class by Mr. Atkins. About eighteen students have already signified their intention of entering the night classes and others who desire to be enrolled should report to these gentlemen or to the president before Monday.

A special class in German meets with Dr. Bonnhelm after 4 o'clock in the evening at the Normal building.

**It Happened in a Drug Store.**  
"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. R. Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it worth the money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend in need of a cough medicine and advised her to buy Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy." The remedy owes its great popularity and extensive sale in a large measure to the personal recommendations of people who have been cured by its use. It is for sale by K. D. Goodall, druggist.

## FIGHT ON SHAN SI FRONTIER

Cincinnati, Ohio, Nov. 3.—The "Times-Star" special says the explosion at "Berryburg" coal mine, Philippi, W. Va., killed thirty-two and injured over 100 men. The mines are eight miles from town. There is neither telegraph nor telephone communication and up to noon no details were obtained.

Detroit, Mich., Nov. 3.—A. F. Berry, president of the Willis Creek Coal company, received a telegram at noon today from H. O. Gray, manager of the mine at Philippi, saying: "Fatalities resulting from the explosion here today are probably six. Indications are that the mine is not injured as badly as first feared. The dynamite taken into the mine in two large quantities by the shooter is believed to have exploded from the concussion of other shots and caused the accident."

The Chinese poured hot enflaming fire on an advance party of eighty Germans under Major Von Forrester, but the British cavalry and mounted sappers, dismounting, scaled the heights, turned the enemy's flanks and relieved Germans.
